

LEARNING WITHOUT LIMITS

FREE ONLINE COURSES FROM THE UNIVERSITY SYSTEM OF GEORGIA

Designed to empower learners embarking on or resuming an educational journey, FreeCampus courses are perfect for boosting students' skills for college-level classes and exploring interesting subjects without any financial or academic risk. FreeCampus noncredit courses are self-paced, supported by University System of Georgia (USG) eCampus, and delivered in an open, online format. Students may register for these tuition-free courses with no hidden costs at any time during the year, and a certificate of completion is awarded for each course.

EARN MICRO-CREDENTIALS

Stack skills and earn certificates to level-up your knowledge in career-building areas with micro-credentials. In select courses, students may earn micro-credentials through the digital credentialing platform, Credly. These secure, verified badges highlight specific skills and achievements and allow students to explore new subjects at no cost.

- **Boost Your Visibility:** Instantly share your verified skills on LinkedIn, social media, and more.
- **Prove Your Expertise:** Badges provide verifiable proof of your knowledge and achievements.
- **Stand Out From the Crowd:** Get noticed by employers and advance your career.
- **Secure & Portable:** Your credentials are always accessible and easy to share.

Browse all subject areas—College Essentials, Science & Technology, Medical Foundations, Business and Finance, and Personal Development—and explore credentialing options that accompany these free, bite-sized and industry-relevant education opportunities.
