## Teaching Experience

### *Higher Education*

University of West Georgia, Carrollton, GA (2006-present)

- **MEDT 7475 The Distance Education Professional (Graduate).** This course focuses on current issues and challenges for the distance education professional. Students will be prepared to assume the role of an e-learning

teacher and professional through the study of distance education research as well as the analysis, design, development, implementation, and evaluation of e-learning environments. Students will examine the management of e-learning initiatives including cultural impact; budget, technological and managerial requirements; quality support; policy issues; development of e-learning materials; facilitating instruction and interaction; and other areas of professional development and training.

- **MEDT 7472 Introduction to Distance Education (Graduate).** A general introduction to conceptual, theoretical, and practical ideas concerning distance education, including the current status of distance learning and its impact on education. Students become conversant in the terminology of the field of distance education, review its history, conduct research on specific areas of practice, investigate instructional and learning design strategies, explore the technologies commonly used, and understand the unique roles and responsibilities of the distance learner and the distance instructor (online).
- **MEDT 6401 Instructional Technology (Graduate).** An overview of communication and technology as it relates to learning. This course includes the design, production and utilization materials and operation of audiovisual equipment and microcomputers. This course will meet the Georgia Technology certification requirement (taught online, blended and face-to-face).
- **MEDT 8461 Diffusion of Innovations (Graduate).** The course focuses on the processes of innovation and change as they apply to educational systems. Students learn how to apply change models and diffusion theory in order to successfully integrate technology-driven procedures and resources into classrooms and schools (online).
- **MEDT 8463 Issues in Instructional Technology (Graduate).** Advanced topics in the theory, selection, production, and utilization of technology-based instructional materials will be examined, and issues, trends, and problems in instructional technology will be emphasized (online).
- **Distance Learning Certification Program (UWG Continuing Education)**
